## SECRETARY MESSAGE

*Kevin Hall's phrase "Ignite your life with possibilities" had ignited my mind for starting this educational institution, Padmavani Arts and Science College for Women. It was started with a sole aim of imparting good education with moral values to the woman folk especially for the socially downtrodden and economically weaker village folks. Though we had a humble beginning, by the absolute grace of God we stand tall among the colleges affiliated to Periyar University, Salem. We are blessed that we worship the Almighty who can create amazing things from nothing, if he pleases things to be so.*

*We assure, Padmavani College of Arts and Science for Women as one of the gifts of God. We are privileged that we are chosen people to be an associate of his great and amazing creation, either as a learner, or a teacher or a protector. The college is housed in the citadel of coconut grove with stellar buildings. At present we have 17 programs in Under-graduation and 11 in Post-graduation apart from Research programs of M.Phil in 08 departments. We have been operating buses for the students and teachers to commute college from their homes with ease. It is a pride for all the inmates that the college has made a consistent progress in all the facets. Students who were rejuvenated in their academic pursuits at Padmavani, I am confident, that they will radiate perennial fragrance and shine eternal light across the globe.*

*No one would have a second thought that the college has contributed to build a strong and healthy Nation.*

**SECRETARY**

## **CHAIRMAN MESSAGE**

*Every educational institution has its own style and way to impart curricular, co-curricular and extra-curricular skills to the welfare of the students. Apart from varsity's syllabi, Padmavani's pedagogy is unique in its own way which is reflected in their contributions. The inspiring, enthusiastic, young talented and encouraging teachers sculpt students in an exceptional way as a result the novice becomes an expert. I appreciate the positive response of the student-children at Padmavani.*

*The vision of the management, to serve the needy is always the primary mission of our college. Undoubtedly the college has been a home for the underprivileged girl children. We stride on the right path with confidence which bears desirable results. We dream high and plan in accordance with our vision and mission to enhance the infrastructure facility and the quality of teaching to reap good yield in the years to come. We are confident that the altruistic faculty members, dedicated non-teaching staff, energetic supporting staff, munificent members of the management will carry the same mission in their mind and heart so as to transform the young minds into a noble citizen.*

*The college has wonderful digital library with volumes of books for the teachers and students to access. The laboratories are established with a state of art facilities. We are well connected with Smart class with WiFi facilities to facilitate the educational needs of our students without any hiccups. We provide the same congenial environment both in the offline and online teaching and learning. We have marched on with many training programs, extension activities, and societal duties for the teachers,*

*students and the public. No doubt, these activities are vital for a student to blossom into a holistic personality.*

*As the Victorian poet proclaims, “the old order changeth, yielding place to the new”, we are privileged to have the potential to update the new strategy in teaching and learning. We tread on the new educational technology without ruining the conventional method of teaching and learning much.*

*As Swami Vivekananda says, “Education is the manifestation of perfection already existing in man”, we try to bring out the best from the student’s educational behaviour. With Ulyssesian thirst, and the spirit of Vivekanda, we strive hard, to seek knowledge, and to find new solutions and we will never yield until we reach our desired goal.*

*With best wishes!!!*

**CHAIRMAN**

## **PRINCIPAL MESSAGE**

*Recollecting the beautiful words of Benjamin Disraeli, “Nurture your mind with great thoughts, for you will never go any higher than you think”. Indeed we require better education to have better thoughts, to be a better human being and to intensify a better society. I strongly believe that every human being is furnished with abundant skills and talents as a pretentious gift of God. I am very much gratified to bring to your notice that Padmavani Arts and Science College for Women is one of those colleges which provide plenty of opportunities along with a value based education to kindle and nurture the inner potentials of every student.*

*As Mahatma Gandhi said, “By Education I mean an all round drawing out the best in child and man- body, mind and spirit”. The ultimate goal of Education is the discovery of the meaning of life and the fulfillment of life and all mankind as well as for oneself. I strongly have a belief that Education is a synergetic effort that engages professional administrators in constituting a potent education programme empowering the students in a global perspective. We have diverse outlooks and experiences committed to excellence in preparing learners for embellished opportunities worldwide. In short learning at Padmavani Arts and Science College for Women is an exemplary package of challenges, attitude and opportunities.*

*“Experiences of life get condensed for education. This is inculcated in various forms in our institution to assure quality. This process gets essentially ensured to nurture Young minds to gain wisdom and strengthen their intelligence. Consistent and focused rendition of education with erudite faculty enhances and sustain life indices of students”.*

*Wishing you all a very happy education at Padmavani Paradise.*

**PRINCIPAL**

# PADMAVANI

## ARTS & SCIENCE COLLEGE FOR WOMEN

### VISION

*To become a renowned higher education institution in the domain of arts and science with other holistic education to women, especially rural women to ensure gender equality through sustainable curriculum and technology enabled pedagogy to make them empowered members of the nation.*
